

EXAMS RESULTS 2020

Centre Assessed Grades Overview

Centre Assessment Grades were the outcome of a rigorous process following guidance from the DfE in which teachers carefully:

- Made a realistic judgement of the grade each student would have been most likely to get if they had taken their exams and completed any non-exam assessment this summer.
- Made a holistic professional judgement, balancing different sources of available evidence including progress data, performance in any class or homework assessments, assignments and mock exams over the course of study, performance on any Non-Exam Assessment, and entitlement to exam dispensation.
- Made objective judgements, only taking into account evidence about student performance.
- Used the most recent Mock results to place students in rank order within each grade.
- Moderated CAGs, at both department and whole-school level, to ensure grades were allocated consistently and took into account each subject's historic performance.
